

## (Love Is Like A) Boomerang

Carole King

If you want to give your heart  
Don't be afraid to try  
Love is like a boomerang  
It comes right back to you

You've got a need for company  
Someone you know will be there  
Don't let your bruised and battered soul deny it  
My scars are plain to see  
But love's been good to me  
And I know it's because I was willing to try it

So if you want to love again  
Don't hesitate any more  
Love is like a boomerang  
It comes right back to you

Throw it out, let it fly  
Let it soar, watch it sail across the sky  
Mountains are there for you to climb  
People are doing it all the time  
You can make it to the top if you make your attempt a strong one

So if you want to give your heart  
Don't be afraid to try  
Love is like a boomerang  
It comes right back to you  
Comes right back to you  
Right back  
Let it fly
