

# New Year's Day

Carole King

Everybody makes a dream this time of year  
From now on it's gonna be good for you  
All your friends and family  
Gather 'round in peace and harmony  
It's a time to remember your blessings  
It's a time to remember your goals  
All the people in your life  
Be they new friends or old

And it could be the time of your life  
Everything's gonna turn out alright  
It'll be okay, in every way makin' it better  
It's New Year's Day

And should auld acquaintance be forgot  
Keep everything they gave you  
An' though they may seem so far away  
You walk with them each and everyday  
And I know sometimes the road isn't easy  
And we've said something we'd never wished to say  
Once a few rounds you loved and lost

You pick yourself up and take a chance again

And it could be the time of your life  
Everything's gonna turn out alright  
It'll be okay, in every way makin' it better  
It's New Year's Day

Countdown's dawn  
And we'll sway along with the band  
Just one more dance  
May all your dreams come true

And it could be the time of your life  
Everything's gonna turn out alright  
It'll be okay, in every way makin' it better  
It's New Year's Day

New Year's Day
