

## So Goes Love

Carole King

Boy, this is goodbye for us  
I'm afraid there's no two ways about it  
Now you say you need my love  
But you'll just have to learn to live without it

So goes love  
Don't try to understand it  
So goes love  
It never works the way you planned it

When you meant the world to me  
That's the time you said you didn't want me  
You played around in front of me  
You did everything you could to taunt me

So goes love  
Don't try to analyze it  
So goes love  
And when it dies you can't disguise it

It's been said  
You made your bed and now you have to lie in it  
There's no denying it's a shame  
But there's really no one else that you can blame

So goes love  
Don't try to understand it  
So goes love  
It never works the way you planned it
