

## States Of Grace

Caroline Herring

Shall we walk the narrow way  
Crooked straight, rough places plain  
Raised up in the yin and yang  
Takes her around and back again  
She's got her act down  
A shadow of a sound  
Her show's on the road  
'Cause she knows what she knows

Can you see her  
I can see her  
Can you see her now  
Amidst all her states of grace  
I can see her now

Tightrope across an ocean wide  
Can we reach the other side  
Where china dolls and worlds collide  
Where we fall and are baptized

She's got her act down  
A shadow of a sound  
And her show's on the road  
'Cause she knows what she knows  
That she knows

Can you see her  
I can see her  
Can you see her now  
Amidst all her states of grace  
I can see her now

She's got a slight frame  
For such a heavy burden  
She's on the highway of her Lord

Can you see her  
I can see her  
Can you see her now  
Amidst all her states of grace  
I can see her now
