

Big Deal

Carolyn Arends

What will people think? What will people say?
I can't believe these questions scare me so
What's it gonna take to get into the game
What could be the worst scenario?
I could hit a wall, I could lose it all
Slip and fall flat on my face

Big deal, so what?
I won't be the first to mess things up
Big deal, it's alright
At least I'll know I tried
Big deal, it's okay
I'll get it right someday

I could lock the doors, I could close the blinds
Play it safe inside my living room
I could let my fears bury me alive
Keep from the things I'm meant to do
Or I could take the cup of life and drink it up
And when I spill it on myself

Big deal, so what?
I won't be the first to mess things up
Big deal, it's alright
At least I'll know I tried
Big deal, it's okay
I'll get it right someday

I will take the cup of life and drink it up
