

At The Time

Carolyn Dawn Johnson

Sometimes I catch myself
Staring off into the distance
Dreaming 'bout you dressing me
Head to toe with your kisses

I smile as the memory sinks in
Thinking I'd like to feel that again

We headed up, we took the fall
We said we'll never let it die
And if I had the chance, well, you can bet
I'll do it all over again, what a beautiful lie

Oh, and even if you have to lie
Please tell me you meant it at the time
You meant it at the time

Like when you said
I was your breath of air and your sunshine
And how you could never
Imagine be it anything but mine

Well, I have to believe it was true
Well, I just feel like a fool
And I'm not a fool

We headed up, we took the fall
We said we'll never let it die
And if I had the chance, well, you can bet
I'll do it all over again, what a beautiful lie

Oh, and even if you have to lie
Please, tell me you meant it at the time

We headed up, we took the fall
We said we'll never let it die
And if I had the chance, well, you can bet
I'll do it all over again, what a beautiful lie

Oh, even if you have to lie
Oh, even though you've left me behind
I hope you meant it at the time
I hope you meant it at the time

We had it all
Yeah, yeah

Sometimes I catch myself
Staring off into the distance
