

Everybody's Favourite

Carolyn Dawn Johnson

We all have dreams
Imagine things
Who we want to be
Straight to the top
Don't give up, don't stop
Be perfect visually

I don't have to be the girl that turns everyone's head
I don't have to be behind the number one door
I don't have to be everybody's favorite
But I definitely have to be
Have to be yours, I have to be yours

I wanna make you laugh
The best you've ever had
I wanna be your last
Be your every need
Your everything
Your future and your past

I don't have to be the girl that turns everyone's head
I don't have to be behind the number one door
I don't have to be everybody's favorite
But I definitely have to be
Have to be yours, I have to be yours

I got one wish and it is this
I will be the one that you will run to
When you're looking for love
'Cause I will love you, I will love you
Like you've never been before
I promise this if I am yours

I don't have to be the girl, don't have to be the girl
Oh, but I have to be yours, I have to be yours
I don't have to be the girl that turns everyone's head
But I have to be your favorite
