

# Got A Good Day

Carolyn Dawn Johnson

A full tank, a hot day  
Ice cold gas station lemonade  
Mmmm, just to cool me off  
My girlfriend on the phone  
Giving me the skinny on the brand new beau  
I can always count on her to know what's going on  
Tom Petty's singing me "Free Fallin"  
I hear the summertime a-callin'

And I got the sunshine and the blue sky up above  
I got the black-top under my wheels  
And I got big dreams and I got people that I love  
And there ain't nothin' wrong  
I got a good day going on

Window's way down  
Smellin' sweet honeysuckle all around  
Mmmm, I just have to breathe it in  
I look left, I look right  
I look to see the scenery, it's outta sight  
Oh, it just doesn't get better than this  
No sense of time, no clear direction  
Just gonna bask in this perfection

And I got the sunshine and the blue sky up above  
I got the black-top under my wheels  
And I got big dreams and I got people that I love  
And there ain't nothin' wrong  
I got a good day going on

(Got a good, got a good, got a good day)  
(Got a good, got a good, got a good day)  
(Got a good, got a good, got a good day)  
(Got a good, got a good, got a good day)

I said hey, hey, are your hands up  
If you're feeling the beat and you're having some fun  
I said hey, hey, are your hands up  
If you got a good day going on

I got the sunshine and the blue sky up above  
I got the black-top under my wheels  
And I got big dreams and I got people that I love  
And there ain't nothin' wrong, oh no  
I got a good day going on

(Got a good, got a good, got a good day)  
(Got a good, got a good, got a good day)  
(Got a good, got a good, got a good day)  
(Got a good, got a good, got a good day)

I got a good day  
I got a good day goin' on  
Oh yeah  
I got a good day
