

# He's Mine

Carolyn Dawn Johnson

Every woman wants, every woman needs  
What everybody thinks is impossible, unachievable  
A man who's strong, admits he's wrong, he laughs along  
And is up for anything and everything

A lot of heart and not afraid to try a little tenderness  
Oh all my friends used to say, "Where you ever  
Gonna find a man like this?"  
Well I got him

He's mine  
He makes me feel like a real live woman inside  
Funny how a little love can get you so high  
I can't wait to get my hands on him tonight, oh tonight  
He's mine

The way he looks at me across a crowded room, he doesn't say a  
word  
Man, that moves me, yeah that man loves me  
He takes me in his arms, I open up my heart, it's like the water  
part  
And it's just him and me and nothing in between

Just when I think  
It's never gonna get any better than this  
He touches me tenderly and we melt together  
In a long slow kiss

He's mine  
He makes me feel like a real live woman inside  
Funny how a little love can get you so high  
I can't wait to get my hands on him tonight, oh tonight  
He's mine, he's mine

He's mine  
He makes me feel like a real live woman inside  
Ain't it funny how a love can get you so high?  
I can't wait to get my hands on him tonight, oh tonight  
He's mine

He makes me feel like a real live woman inside  
Funny how a little love can get you so high  
I can't wait to get my hands on him tonight, oh tonight  
He's mine, he's mine, oh  
He's mine
