

League of Small Heroes

Carousel Kings

I'm tired so I'm laying down my youth for today
I know that I can save this
Strangeless defendants halt our quaint advances
to groove, boobs, move

We're gonna lead a league of small heroes
Don't call me crazy
(League of small heroes)
Can't get much worse
From the streets of my town
to invade your surround sound
League of small heroes

I'm tired and I'm waiting to lose
(TAKE THESE WORDS BACK)
The sunrise won't open its heart for you
She said that she knows me like daytime TV
and she finds me repulsive like fat

Don't call me crazy
Can't get much worse
Me and my league of small heroes
We're proving what we're worth
