

Moonlight

Carousel Kings

If I can see it in your eyes, one more time
I swear, I swear I'll never say goodbye
And more ... I drove all night
Like ... be by my side
The stars I follow, and I turn song into get home
This song's exhausting, all those feeling that I...
Late night songs

If I could see you in the moonlight
I'd light around my own fire in your eyes
We're turning bridges in the moonlight,
Tonight

I'll make everything I do, all for you

If you promise me you'll never leave my side
I know that I can conquer everything
As long as you're still in right by my side
The stars I follow, and I turn song into get home
This song's exhausting, all those feeling that I...
Late night songs

If I could see you in the moonlight
I'd light around my own fire in your eyes
We're turning bridges in the moonlight,
Tonight x 3
