

Silence

Carousel Kings

What has this world become
Silence has made us numb
We hate one another for reasons we can't explain
Lying to hide from you
The pain that haunts you too
Don't try to tell me this doesn't feel wrong

Ask me
When did I become so different
Tell me
What it is that keeps you the same
Show me
What you're hiding from
Let's hide together, ride together
'Cause nothing's worse than being alone

I won't give up on you
I won't give up on me
This won't be my defeat
I won't give up on me

I'll take you to a time
Another state of mind
Flashing my teeth to create the anxiety
Eyes of a man who does
Everything out of love
Will burn with desire escaping society

Just go away

I have to fight it

I know this isn't me
I have to fight it
And break the cycle

Ask me
When did I become so different
Tell me
What it is that keeps you the same
Show me
What you're hiding from
Let's hide together, ride together
'Cause nothing's worse than being alone

I won't give up on you
I won't give up on me
This won't be my defeat
I won't give up on me

I have to fight it
I know this isn't me
I have to fight it
And break the cycle

I have to fight it
I won't give up on me

I have to fight it
Just go away
