

# Try Not To Break Us Down

Carousel Kings

Try not to break us down  
This is our time, this is our source  
To break this line with no remorse  
And everything you said, take it back  
And be the victim for the last time now

Thinking back on every little thing you said  
you said that everything was fine  
But now as time is getting older  
Sometimes it's hard to show  
what we feel inside

Don't save your breath for me  
We'll take it down a notch  
Just let me calm myself  
Let's just reset the speed  
(stop no take it away!)  
so we can finally score

Save some sugar for me  
I got your number  
Try not to break us down  
It's our time  
Save some sugar for me  
Show me what you got  
Try not to break us down

Don't you like when I mess up like you do?  
Won't you like when I wreck everything in my sight  
The ghost that appears from the ashes is yours  
I swear this is dead.
