Zombie

Carousel Kings

You think you're smart Change who you are just to fit in You act like a snake Hiding in the grass waiting for me

I'm so sick of this scene You're nothing but a zombie to me Feeding your apathy

So this means war
What is your cause
Why do you fight
You think you're in charge
Of what is wrong and what is right

I'm so sick of this scene You're nothing but a zombie to me Feeding your apathy

So this means war

So this means war What is your cause Why do you fight For what you think is wrong and right

We're all so sick of this scene
You're nothing more than a zombie to me
Just feeding your apathy
I want you to know
You're just a zombie to me
