

Copenhagen

Carpark North

I'm lost beneath your yellow sky
Looking for a sign while the cars go by
Cause I keep on heading dead end streets
And still I hear your heart in the distant beeps

It's something that I close my eyes and fall
On this never heart explodes in Copenhagen

I'm going, I give in tonight
Carry me through your streets and take me home
My Copenhagen, I don't have the strength tonight
So carry me through your streets and take me home
Just take me home

I see waking ghosts and sleeping souls
I see daylight turn into blackened roads
And when you cover me with your mist at night
I still see your face in the neon lights

It's something that I close my eyes and fall
On this never heart explodes in Copenhagen

I'm going, I give in tonight
Carry me through your streets and take me home
My Copenhagen, I don't have the strength tonight
So carry me through your streets and take me home
Just take me home

Just take me home
Cause I can't fight for when my own
Just take me home. (3x)

I'm going, I give in tonight
Carry me through your streets and take me home
My Copenhagen, I don't have the strength tonight
So carry me through your streets and take me home
Just take me home.
