

So you think about leaving her  
And giving it all up for another girl,  
Who is on your mind

You're tired and want a change  
You're just another step from causing pain  
You wanna give up, 'cause it's on your mind

Please stop this crazy madness  
There's so much more to say  
Please start to see what's happening  
You're throwing it all away  
You're just completely blind  
Please stop, please change your mind

You got  
What you  
Needed  
You want more  
You take  
To feed it  
You need it  
You want more  
She is  
Cheated  
Defeated  
You want more  
You got  
What you  
Needed

You are never ever satisfied,  
Looking for something that'll make you high.  
You're sad, 'cause it's on your mind

I'm tired of hearing you  
Say that you gotta get something new again,  
'Cause it's on your mind

Please stop this crazy madness  
There's so much more to say  
Please start to see what's happening  
You're throwing it all away  
You're just completely blind  
Please stop, please change your mind
