

# One to Breathe For

Carpark North

In the night  
I'm watching you  
Only you  
In the nighttime  
I dream of you  
Only you

Every night I'm  
missing you  
Only you  
I don't know how I  
reach for you  
Only you

I long  
I live  
But I survive only to exist  
I breathe but without love  
A breath is just a ticking clock

In the night I'm watching you  
Only you  
Every night I'm starting to  
Get close to you

I love  
I live  
But I survive only to exist  
I breathe but without love  
A breath is just a ticking clock

I love  
I live  
But I survive only to exist  
I breathe, but without love  
breath is just a ticking clock  
breath is just a ticking clock

I just need  
One to breathe for, you could be  
One to breathe for, if you need  
One to breathe for, could I be  
One to breathe for, we all need  
One to breathe for, do you see  
One to breathe for, I sure need  
One to breathe for, let us be  
One two three four

I just need  
One to breathe for  
You could be  
One to breathe for  
If you need one to breathe for  
Could I be  
One to breathe for?
