He's Turning Blue

Carpathian Forest

He hung himself in the middle of the night Found dead in the morning bright light Got no more lithium Gave up life They say: you better give up now Its not worth the strife The soul constipation

He's turning blue He's turning blue He's turning blue He's turning blue And nobody cares

He withered He's not the only one Come on get it over with You're not the only one

He's turning blue And nobody cares
