

# An Old Fashioned Christmas

Carpenters

How I miss that old fashioned Christmas  
Carols being sung by the tree  
Window's candlelight shining bright for the whole world to see  
Children's eyes of sweet expectations

Wondering what each present will hold  
Lying in their beds and impatient  
On long Christmas Eve's of old

It used to be that all the family would gather for this one night  
It used to be that special feeling shared together  
Knowing Christmas was here one night a year

How I miss that old fashioned Christmas  
Memories that last through the years  
Call me sentimental, don't mind if you do  
I wish an old fashioned Christmas to you
