

# Kiss Me the Way You Did Last Night

Carpenters

Serenade me by the light of the moon,  
Let's sing and dance as lovers do  
When the morning light shines down on me  
With you, my love I want to be

As the stars go sailin' by  
We can count them you and I  
We can make a wish when one falls from the sky  
And my only wish would be  
That forever I would see  
You movin' thru the darkness smiling that way at me

Kiss me the way you did last, night  
Lay down beside me, holdin' me tight  
Kiss me the way you did last night,  
Tonight until the morning light

Celebrate love while the feeling is new  
It's a moment that was meant for me and you  
If tomorrow never comes I won't care,  
I'll just love you tonight and all we share...

Kiss me the way you did last, night  
Lay down beside me, holdin' me tight  
Kiss me the way you did last night,  
Tonight until the morning light  
Tonight, tonight and every night  
Kiss me  
The way you did last night

Kiss me the way you did last, night  
Lay down beside me, holdin' me tight  
Kiss me the way you did last night,  
Tonight until the morning light  
(2x)
