

# When Time Was All We Had

Carpenters

That endless season  
When time was all we had  
We saw forever  
And caught it in our hands

Life was a charm  
Our hearts were filled with music  
And laughter  
When time was all we had  
We had

I never will forget  
Your face in silhouette  
Your voice will be the sweetest sound  
I'll ever hear and yet

We knew somehow  
The song would never end  
When time was all we had to spend

When time was all we had...

I never will forget  
Your face in silhouette  
Your voice will be the sweetest sound  
I'll ever hear and yet

We knew somehow  
The song would never end  
When time was all we had to spend
