

When Time Was All We Had

Carpenters

That endless season
When time was all we had
We saw forever
And caught it in our hands

Life was a charm
Our hearts were filled with music
And laughter
When time was all we had
We had

I never will forget
Your face in silhouette
Your voice will be the sweetest sound
I'll ever hear and yet

We knew somehow
The song would never end
When time was all we had to spend

When time was all we had...

I never will forget
Your face in silhouette
Your voice will be the sweetest sound
I'll ever hear and yet

We knew somehow
The song would never end
When time was all we had to spend
