

# Quitter

Carrie Underwood

Here's how it goes  
Boy meets girl, girl leaves boy  
That's all I know  
All I've done, all my life

'Cause throughout my history  
I've only been with jerks  
Who couldn't take it  
But you see the picket fence  
A swing on the front porch  
With us two on it

When I believe that nothing lasts forever  
You stay with me, keeping us together  
And make me feel like I never ever wanna give you up  
'Til now, I've always been a quitter

You rescued me  
Saved my life just in time  
Saw past all my issues and scars  
And made me try

'Cause oh, the way you're kissing me  
Makes it hard to breathe  
But I still like it  
Oh oh, it truly feels like a dream  
You know exactly how I want it

I believe that nothing lasts forever  
You stay with me, keeping us together  
And make me feel like I never ever wanna give you up  
'Til now, I've always been a quitter

I've always been a quitter

When I believe that nothing lasts forever  
You stay with me, keeping us together  
And make me feel like I never ever wanna give you up  
'Til now, I've always been a quitter

I've always been a quitter
