

## Fiend

Cartel

I see you all the time  
I see you in a video  
Running through my head  
I hear that you're a fiend  
You love and let nobody know where you go

Why didn't you come back to me?  
I'll give you whatever you want  
Turn around on the way out  
And you will find  
I needed you all the way  
Now if you don't mind

I never needed anything  
Anything but this tonight  
I needed you to tell me what was wrong

Why didn't you come back to me?  
I'll give you whatever you want  
Turn around on the way out  
And you will find  
I needed you all the way  
Now if you don't mind

This is just like everything  
I told you he would say  
Why wouldn't you just listen  
So it wouldn't end up this way

Why didn't you come back to me?  
I'll give you whatever you want  
Turn around and you will find  
I needed you all the way  
Now if you don't mind

Why didn't you come back to me?  
I'll give you whatever you want  
Turn around and you will find  
I needed you all the way  
Now if you don't mind
