Let me reintroduce myself As a man with a cause I've had a lot of time to think And look at who we are And I've got nothing left to say But we've got to carry on And I've got so much left to do But I'll start with this song Why do they lie? Why can't you see? Get up everybody Stand up with me Let's Go! Everybody! Let's Go! Tell 'em we're coming Let's Go! Everybody! Let's Go! Stand up with me! Let's Go! Take the world with me You've got something on your mind But you get in your way Don't tell us tomorrow You better buy change today All we have is who we are And all we know is pretending You gotta think of something real Save a life worth spending Why do they lie? Why can't you see? Get up everybody Stand up with me Let's Go! Everybody! Let's Go! Tell 'em we're coming Let's Go! Everybody! Let's Go! Stand up with me! Let's Go! Take the world with me So if you've got a torch to carry Hold it high! Take the world with me Let it burn, let it burn, let it light up the sky! Stand up! Yeah, let's go Stand up! You've gotta let them know Stand up! You've gotta make them see Get up people! Stand up with me! Let's Go! Everybody! Let's Go! Tell 'em we're coming! Let's Go! Everybody! Let's Go! So I'll sing...

Let's Go! Everybody!

Let's Go! Tell 'em we're coming! Let's Go! Everybody! C'mon everybody, stand up with me! So let's go! Take the world with me! Let's go! Let's go!
