Patience, child it will find you Your deepest dreams will guide you the moment that you're born all night my fear inside will come through haunting right behind you don't let it get that far

Somehow

breathe a little deeper now cause this is who we are when we look into their eyes don't fly so high so high little bird you'll get your wings clipped we'll pick it up, pick it up now you've learned

Searching

for moment that defines you
your deepest dreams remind you
get out before you're gone
Now that all you hear is what surrounds you
push it out, give it out
from around you
never stop and you will find it all

Somehow

breathe a little deeper now cause this is who we are when we look into their eyes don't fly so high so high little bird you'll get your wings clipped we'll pick it up, pick it up now you've learned

So we decide...
We decided
We decide this now
So find out how we can survive
How we can survive
If we learn how to live our lives
If we learn how to live...

Somehow

breathe a little deeper now cause this is who we are when we look into their eyes don't fly so high so high little bird you'll get your wings clipped pick it up, pick it up now you've learned
