

# One More Night

Cascada

You are all I can remember  
After all that we've been through  
Forever in my heart  
Now I'm through  
And June feels like November  
Still can't believe it's true  
Too long we've been apart

One more night  
I wanna to be with you  
Where I wanna to hold you tight  
It feels so right, tonight  
So leave it up to you  
And I think the time is right to stop the fight  
One more night  
I wanna to be with you  
Where I wanna to hold you tight  
It feels so right, tonight  
So leave it up to you  
And I think the time is right to stop the fight

Why can't true love be forever?  
Why did my dream explode?  
The day you went away  
Cause I will keep this spell together  
And wish you well of hope  
Your girl from yesterday

One more night  
I wanna be with you  
Where I wanna hold you tight  
It feels so right, tonight  
So leave it up to you  
And I think the time is right to stop the fight  
One more night  
I wanna be with you  
Where I wanna hold you tight  
It feels so right, tonight  
So leave it up to you  
And I think the time is right to stop the fight
