

Driving

Case

You wanna come play my sex games baby
You still want me to taste you don't you
Baby, baby yes I will

You and I alone up in my Benzie
Body got me going in a frenzy
Let's be on our way to my hide away
So many things I like to do
Can't hide the fact our hearts are racing
Yeah, I can smell anticipation
This is all for you please enjoy the view
I'll show you things you never knew

I will be driving and you will be riding
Riding all night long to a slow song
To a slow song

Turn the music up that joint is soothin'
Can't ignore how your body's movin'
To kickin' snare girl we're almost there
I can't believe my tinted eyes
Look at me you got my body swervin'
An evening on me girl you're deservin' to be pleased
I think you know what I mean

Girl can we please go
Up and down and side to side
I will provide all that you need
We can speed or take it slow
Head to toe
You will be pleased
