

# Rain

Case

Oh, hmm  
The sun gone down  
And I'm all alone  
Rain drops fall on my window pane, hmm  
I'm waiting here for you to call so  
We can be alone in the rain, so

- Let it rain on me  
Come down on me  
Come inside and make me feel right  
Let it rain on me  
Come down on me  
Let's get wet together tonight

Hey, here we are  
And you look so fine  
You can't wait to feel me inside  
And I hope it's no mistake  
And in the morning when I wake  
That the storm that made us one passes by so?

Oh, I just need to feel a part of you  
And when you give me your love  
That's all I need  
Your love is all I need  
To make my night complete  
And no one can do you like me  
So let it rain on me

Let's not waste tonight  
Let's not waste tonight baby  
Oh let's not waste tonight  
We don't need to waste no time, oh  
Let's not waste tonight, oh  
Let's not waste tonight?
