

# Great Bright Morning

Casey Abrams

Throw the maps out let's get lost  
Nothing matter but the two of us  
All the world for us to see  
Let's go find a little mystery

Dig our toes  
Into the open road

We go into this great bright morning  
Leave the rest of this world behind  
Falling into this great bright morning  
You and I  
You and I

Treat me like a best friend does  
We don't have to speak at all  
Counting clouds and chasing dreams  
Through the streams and the water falls

Dig our toes  
Into the open road

We go into this great bright morning  
Leave the rest of this world behind  
Falling into this great bright morning  
You and I  
You and I

Ohh ohh

2 x  
We go into this great bright morning  
Leave the rest of this world behind  
Falling into this great bright morning  
You and I  
You and I
