

Let Me Love You

Casey Donahew Band

Well I've been out here on this highway for a while,
I think about you girl with every passing mile,
I tell you I love you and then I turn and I walk away,
I see your lips, your face, your smile and I beg to stay,

Now just let me love you, let me hold you,
Let me touch you, like you need to be touched,
Let your arms be my fire, let them burn all night long,
Let me love you like you need to be loved

Whiskey and highway, well they call my name,
All these small town dirt roads start to look the same,
I'm headed back, I hate that you're alone,
Just a few more miles until I make my way back home,

Now just let me love you, let me hold you,
Let me touch you, like you need to be touched,
Let your arms be my fire, let them burn all night long,
Let me love you like you need to be loved

When those dark night finally move in,
Let this river lead me back to my only..
