

# Let You Down

Casey Donahew Band

She turned 21 in April,  
You know her birthday's the same as mine  
When we first met she'd never left Texas  
She was young and so confused  
She got caught up in the bright lights  
The whiskey, pills and all those late nights  
From the mountain where we standing,  
She fell so far that she could not see

And I was angry when I woke up  
When I found out that we broke up  
She packed her bags, she was gone before the sun  
She left a letter on the table,  
Said catch me if you're able  
But I'll be moving fast and I'm still hard to find  
So I wont call you and I wont follow  
Cause the truth is hard to swallow  
Said I'd pick you up, but I'd only let you down.

Heard from a friend you moved back to Corpus  
You always loved that ocean air  
I know that you know that I'm headed down that way  
Don't worry cause I wont call  
It'd be strange for me to see you  
You know there's so much left unsaid

Said I'd pick you up but I'd only let you down

Wrote you a letter while in Corpus  
It took everything I had  
Went down to the pier and looked out across that bay  
Took that letter then I watched it burn away

Said I'd pick you up but I'd only let you down
