

# Shine On Me

Casey Donahew Band

The sands of time they flow so slow  
I catch hell from everyone I know  
And I'm so tired of being alone  
So I get drunk and I just stay home

Looking in the mirror I get lost  
I think about life's choices and the cost  
I wish I could stop and catch my air  
And whoever said that life is fair

Now it's been a long 25 years  
Living life with all these fears  
I'm holding on for a better day  
Pray the sun will come and stay  
Shine on me, shine on me

Life so hard, I'm so confused  
Broken down, my soul's been used  
And I know there won't be an excuse  
But sometimes you got to cut the pain loose

I know you won't understand  
All I can do is all I can  
I'm so weak when I need to be strong  
And it won't be long until you find me gone

Now it's been a long 25 years  
Living life with all these fears  
I'm holding on for a better day  
Pray the sun will come and stay  
Shine on me, shine on me

Just shine on me (shine on me)
