

# Miss Your Fire

Casey James

It's 3am and I'm wide awake  
I keep wondering where you are  
This empty ache it cuts through me  
Like a piece of glass in my heart

Oh I miss your fire  
Oh I miss your fire

Your passion made me feel a love  
Like the blue inside a flame  
And I can't get you off my mind  
Burns me when I hear your name

Oh I miss your fire  
Oh I miss your fire

This bed is freezing cold  
Never felt so alone  
And I can't get you off my mind  
So much that we left unsaid  
So much that I can't forget  
I just wanna hold you tonight

Toss and turn in these sheets  
You still keep me up all night  
Miss the way you were unashamed  
The way you never closed your eyes

Oh I miss your fire  
Oh I miss your fire  
Miss your fire  
Ooooh  
I miss your fire  
Ooooh
