

Miss Your Fire

Casey James

It's 3am and I'm wide awake
I keep wondering where you are
This empty ache it cuts through me
Like a piece of glass in my heart

Oh I miss your fire
Oh I miss your fire

Your passion made me feel a love
Like the blue inside a flame
And I can't get you off my mind
Burns me when I here your name

Oh I miss your fire
Oh I miss your fire

This bed is freezing cold
Never felt so alone
And I can't get you off my mind
So much that we left unsaid
So much that I can't forget
I just wanna hold you tonight

Toss and turnin in these sheets
You still keep me up all night
Miss the way you were unashamed
They way you never closed your eyes

Oh I miss your fire
Oh I miss your fire
Miss your fire
Ooooh
I miss your fire
Ooooh
