

# I Hope We're Not The Last

Casey Jones

Playing fast and playing hard  
We never meant to get this far  
Sometimes your dreams will just take you by surprise  
Growing up at lions club, milk bars, house shows so much fun  
This is what helped us to become who we are  
A dying breed just like before, we weren't first but hope there  
's more  
Words of hope to always help you carry on  
And I hope we're not the last  
It seems to me if you're real, you will not last  
And I hope we're not the last  
I hope we're not the last  
Not breaking up or breaking down just moving onto new grounds  
A time for change has shown it's face  
But we still move against the grain  
By the choices we make  
All our actions are still straight  
I hope we're not the last for the ones who seek ideas of change  
For the ones who still remain, I hope we're not the last!
