Cash Cash

Let's go  
Follow me outside  
And I know it won't be long 'til  
I'm holding your hips tight  
I know you want to  
Leave 'em all behind  
So let's catch a cab downtown now  
And light the fire up and make it right  
Cause there's nobody home tonight

Break out  
And take it to the floor  
So I can take you home and give you all the things  
All the things we're not supposed to do  
Break out  
And take it to the floor  
We'll finally be alone, just take me home with you tonight  
Just you and I  
And sing Oh oh  
And sing Oh oh ohhh  
All night

Let's go  
Cause I'm feeling wild  
And I know it won't be long 'til  
I'm touching you skin soft  
I know you want to  
Give it up tonight  
Oh no  
I would never break your heart girl  
Just give me one more chance to make it right  
Cause there's nobody home tonight

Break out  
And take it to the floor  
So I can take you home and give you all the things  
All the things we're not supposed to do  
Break out  
And take it to the floor  
We'll finally be alone, just take me home with you tonight  
Just you and I  
And sing Oh oh  
And sing Oh oh ohhh  
All night

Oh oh Oh oh oh

Break out  
And take it to the floor  
So I can take you home and give you all the things  
All the things we're not supposed to do  
Break out  
And take it to the floor  
We'll finally be alone, just take me home with you tonight  
Just you and I

We'll finally be alone

We'll finally be alone

Break out

And take it to the floor

We'll finally be alone, just take me home with you tonight

Just you and I

And sing Oh oh

And sing Oh oh ohhh

All night
