

Can't Stop Looking

Cash Cash

You're a tease
Hard to please
Why do they always come in threes
A sweet disease
I'm on my knees
I'm looking for,
A medicine to change my ways
I'm tired of using the door
Oh I don't even remember
Anyone after her
She's stru-stru struck like a curse
And it feels like a blur
Now I'm starting to slur
My words just thinking of her

Oh, Hey babe
What to do
What to say
When I can't stop lookin
Hey, Hey
Baby tell me what you're looking for
Yeah, I keep waiting around
And my head hits the ground
And my love keeps on walking away

Tell me now
What to say, What to do
I'll change my ways
Just stare and gaze
And watch me roll right through this maze
Oh You're worth the dime,
You're worth my time
So loose the guy
And let me try to take you for a ride

Hey babe
What to do
What to say
When I can't stop lookin
Hey, Hey
Baby tell me what you're looking for
Yeah, I keep waiting around
And my head hits the ground
And my love keeps on walking away

What to do
What to say
When I can't stop lookin
Hey, Hey
Baby tell me what you're looking for
Yeah, as you reach for the ground
with my head in the clouds
just the thought of you dreaming away
