

# Electric Hearts

Cash Cash

Is it over yet?  
We should spend the week in bed  
Because your wrongs are wrong  
And you can't make them right

Was it all a dream?  
Because you're finally breaking free  
We're gonna feel the rush  
Coming over us tonight

'Cause we're going, going, gone

Throw your hands to the sky  
like you're flying  
Throw your hands in the air  
'cause we'll shake it up tonight  
Hot, hot like a fire  
When electric hearts collide

We're gonna crash around  
'Til we wake this whole damn town  
We're gonna flip the switch  
And plug it in

And when you lose control  
When your beating heart explodes  
You're gonna scream along  
To every song we sing to you

'Cause we're going, going, gone

Throw your hands to the sky  
like you're flying  
Throw your hands in the air  
'cause we'll shake it up tonight  
Hot, hot like a fire  
When electric hearts

Throw your hands to the sky  
like you're flying  
Throw your hands in the air  
'cause we'll shake it up tonight  
Hot, hot like a fire  
When electric hearts

Electric hearts

We're gonna take your breath away  
You're gonna scream the pain away  
Try your luck again  
Be strong, don't bend  
Give it all we can  
And do it again

Throw your hands to the sky  
like you're flying  
Throw your hands in the air

'cause we'll shake it up tonight  
Hot, hot like a fire  
When electric hearts

Throw your hands to the sky  
like you're flying  
Throw your hands in the air  
'cause we'll shake it up tonight  
Hot, hot like a fire  
When electric hearts

Throw your hands to the sky  
like you're flying  
Throw your hands in the air  
'cause we'll shake it up tonight  
Hot, hot like a fire  
When electric hearts

Electric hearts  
Electric hearts  
When electric hearts collide
