

# Fairweather Friend

Cash Cash

Cause you'll be where the grass stays green  
Skies clear with a chance of rain tonight  
But you'll leave before it gets here  
You'll stand there with your gimme gimme stare  
But I know I just can't be here with you,  
Cause I don't need to

Turn around as the clock strikes three  
Loose your clothes and join me in my bed  
You're in my head tonight  
Your legs shake from the chill inside my room  
But you won't bare the cold  
My sheets can't keep you warm,  
So I'll see you around summer, summer

Cause you'll be where the grass stays green  
Skies clear with a chance of rain tonight  
But you'll leave before it gets here  
You'll stand there with your gimme gimme stare  
But I know I just can't be here with you,  
Cause I don't need to

Breathe it in now, breathe it in now  
Breathe it in, take it back now  
Breathe it in, take it back  
Breathe it in now, breathe it in now  
Breathe it in, take it back now  
Breathe it in, take it back

For the first time take this slow,  
Stick around now breathe it in, stick around  
My sheets will keep you warm, oh they will  
For the first time let me know,  
Don't run around now looking to find me  
I'm waiting where you are,  
So I'll see you around summer, summer

Cause you'll be where the grass stays green  
Skies clear with a chance of rain tonight  
But you'll leave before it gets here  
You'll stand there with your gimme gimme stare  
But I know I just can't be here with you,  
Cause I don't need to

Cause you'll be where the grass stays green  
Skies clear with a chance of rain tonight  
But you'll leave before it gets here  
I've learned I'll never let you go,  
But it's so hard for me to show  
How I feel about you now
