

## Interlude

Cash Cash

Money can provide countless benefits  
Security and a well balanced meal  
A new pair of sneakers  
It should be used to create and enable the positive growth of mankind  
And the world around us  
Money can also lead one into the vice and depravity  
Remind oneself what is most important  
Regardless of its power and appeal  
Cash can not replace friendship and family  
Joy and happiness
