

Sugar Rush

Cash Cash

I took my time
I never touched when you taste you tease me
All night, sugar rush
Just gimme a taste tonight
Oh oh oh girl you're too much
I'm burning up right now, and I need your touch
Come on let's take a ride
Crash and we'll collide
Just give it a chance tonight

So I can taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end

I hate the chase
Just stop the clock cause you're so close now
That I can taste, sugar rush
Then up and go without a trace
Oh oh oh you and your hoax
You got me all lit up in your fireworks
Come on we'll light the sky
Smokes a shooting fly
Let's give a chance tonight

So I can taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end

So I can taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end

Hold me down till the very end
Love, your sweet sweet love's making me
Go off the wall
Making me fly high
Can't sleep, got a big crush
I, I can't sleep need a sugar rush
Love, your sweet sweet love's making me, go

So I can taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end

So I can taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end

So I can taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end

One big sugar rush
Suck me in, suck me in, hold me down till the very end
