

This Goodbye

Cashless Society

This goodbye is forever, I know
So give me my heart back and go
You say that you're sorry
But you don't love me anymore
You gotta leave me here all alone
Like so many times before
I'd be a liar if said it doesn't matter much to me
This time you're serious
You don't love me anymore
This goodbye is forever I know
So give me my heart back and go
Don't try to explain
It won't save me from pain
A few weeks passed by
And I don't try to explain
Whatever happened to you and me
So quit complaining, cause I know
You never loved me and that's ok
Turn around and go, there is nothing more to say
This time I'm serious
I don't love you anymore
This goodbye is forever I know
So give me my heart back and go
Don't try to explain
It won't save me from pain
