

# Keep The Change

Caskey

Yeah I go again, I back out  
I drive way on Fridays I blackout  
Too many bars I know they only talk about my scars  
But I hardly ever see the pain when I'm riding in these cars  
I'm in the backseater  
15 feet up my ambition they feed up  
Somebody gotta keep me middle headed  
Eyes beat up forever  
Everything while I read up  
I wonder what my hometown  
Your feds hate me when they tell me to invest my time  
And all these hoes they just hoes  
I've seen the money a million time for  
And they try to put me in blindfolded  
And I'm trying to pray light  
Lights on  
Me I'm trying to bring the lights on  
And why they always giving me advice  
You know like  
The shit I'm doing like  
Like I don't know, fuck'em

What's a man, the principles to stand by  
Good could be the bad this by a landslide  
You never know about your life do a 3 minutes song  
They telling leave me alone to take you on  
They always try to fuck with me  
They always try to fuck with me  
I'm on the interstate road doing 1-50  
Without memories that stuck with me  
I'm must trying to live life  
I'm must trying to live life  
And I'm must trying to live life

Everybody got they two sift for me  
But they never wanna do shit for me  
I could keep your change  
But I'm just trying to live life  
I'm just trying to live life  
Everybody got they two sift for me  
But they never wanna do shit for me  
I could keep your change

Coming up from seeing form a girl human being  
An opportunity to make keys that's a blessing  
All they saying on me that's depressing like  
The fuck did I do to deserve a...  
My window, somebody riddle me that  
Lately I roll around nigger with this trap  
Somebody go... pull up the gap another stone  
My homies be like what for man?  
Shit! Hope my funeral more loud than usual  
You could feel the energy my soul brain  
It's like get on every track with the soul train  
Nowadays they don't wanna hear you rap without the gold chain  
How to give them a taste of my story  
Man these last words

What's a man, the principles to stand by  
Good could be the bad this by a landslide  
You never know about your life do a 3 minutes song  
They telling leave me alone to take you on  
They always try to fuck with me  
They always try to fuck with me  
I'm on the interstate road doing 1-50  
Without memories that stuck with me  
I'm must trying to live life  
I'm must trying to live life  
And I'm must trying to live life

Everybody got they two sift for me  
But they never wanna do shit for me  
I could keep your change  
But I'm just trying to live life  
I'm just trying to live life  
Everybody got they two sift for me  
But they never wanna do shit for me  
I could keep your change

They probably think my life was a walk in the park  
They don't see the pain that I she'd for the art  
They don't see the long days I was there in the dark  
Lights cut off, gas bill too until it shut off  
I'm sick of talking cold ass shower  
It's like the fuck are you doing this for?  
If you ain't got no power  
This rap shit is like a job that got no hours  
Ain't got a relevant buzz going on at a time  
I know some underground cats...  
Let my mama grind forever  
Just trying to spend time together  
The bills when we dine together  
Got pockets so straight that she fine forever  
Y'all can't feel doubt then the fuck you're talking for?

And What's a man, the principles to stand by  
Good could be the bad this by a landslide  
You never know about your life do a 3 minutes song  
They telling leave me alone to take you on  
They always try to fuck with me  
They always try to fuck with me  
I'm on the interstate road doing 1-50  
Without memories that stuck with me  
I'm must trying to live life  
I'm must trying to live life  
And I'm must trying to live life

Everybody got they two sift for me  
But they never wanna do shit for me  
I could keep your change  
But I'm just trying to live life  
I'm just trying to live life  
Everybody got they two sift for me  
But they never wanna do shit for me  
I could keep your change
