## **One Way Ticket**

**Cass Elliot** 

Call the village band out, bid me goodbye Everybody stand outside and cry
Never thought so many thought me so dear
I'd be happy any place but here

One way ticket, take me anywhere
North bound, south bound, I don't even care
I know the grass is greener there

People in the city, leave you alone Everyday is pretty much your own One among the many, year after year I'd be happy any place but here

One way ticket, take me anywhere
North bound, south bound, I don't even care
I know the grass is greener there

Look over the passing train and there I am No matter were I am, I'm passing through

One way ticket, take me anywhere North bound, south bound, I don't even care I know the grass is greener there

One way ticket, take me anywhere One way ticket, take me anywhere
