

The Good Times Are Coming

Cass Elliot

I'm not about to come unhinged when everything goes wrong
A fact is something to be faced
But not for very long

The good times are coming
They'll be coming real soon
And I'm not just pitching pennies at the moon
The good times are coming
When they come I'll be there
With my both feet firmly planted in mid air

There's gonna be a place for us
A place where we belong
'Cause to stand outside just looking in
Has got to be all wrong

The good times are coming
They'll be coming real soon
And I'm not just pitching pennies at the moon
The good times are coming
When they come I'll be there
With my both feet firmly planted way up there
In mid air
