

## County Line

Cass McCombs

On my way to you, old county  
Hoping nothing's changed  
That your pain is never-ending  
That is, it's still the same  
County Line  
County Line  
I left so far behind

You never even tried to love me  
What did I have to do to make you want me?  
I feel so blind, I can't make out the passing road signs  
All that you would have me do is cross that County Line

Now you know I'm coming, old county  
To see construction sites  
And your new homes never-ending  
I think I can see the lights  
County Line  
County Line  
I can smell the columbine

You never even tried to love me  
What did I have to do to make you want me?  
I feel so blind, I can't make out the passing road signs  
All that you would have me do is cross that County Line
