

Love Thine Enemy

Cass McCombs

Love thine enemy But hate their lack of sincerity Love thine enemy

I found this quote in a book and I thought of you So I walked me out like a moth in the morning dew And a million cigarettes later the quote reappeared Now nothing about my love could be called insincere

Love thine enemy But hate their lack of sincerity Love thine enemy

Every idiot thing you say speaks of Pain and Truth Because of the beautiful way your tongue can seduce What's behind the mountain is a mystery That's why after the quote I added: Sincerity

Love thine enemy But hate their lack of sincerity Love thine enemy

He tried to come between us like a purple ghoul Hypocrites especially practice the golden rule I love what you say though sometimes it's mean Without earthworms how else would the soil keep clean?

Love thine enemy But hate their lack of sincerity Love thine enemy
