Proved You Wrong

Cassadee Pope

Cold as ice, your words cut like knives I deserve a prize, for sticking around this long

You say I'm nothing without you And no one loves me like you do Always left me feeling black and blue Well this can go on and on and on

But I hey I'm breaking free just watch me walk away Had your hooks in me but I escaped I don't need excuses Done with your abuses Telling me that I'm not strong baby Hey just listen to the song cause I-I-I proved you wrong I-I-I proved you wrong

It's easier letting go of us Said I didn't even have the guts Yeah, here I am backing up I'm taking my heart back cause I've had enough

But I hey I'm breaking free just watch me walk away Had your hooks in me but I escaped I don't need excuses Done with your abuses Telling me that I'm not strong baby Hey just listen to the song cause I-I-I proved you wrong I-I-I proved you wrong

Hey I'm done with you and all the lies you made You were such a mistake

But I hey I'm breaking free just watch me walk away Had your hooks in me but I escaped I don't need excuses Done with your abuses Telling me that I'm not strong baby Hey just listen to the song cause I-I-I proved you wrong I-I-I proved you wrong
