

# Tell Me You'll Wait for Me

Cassandra Wilson

I'll always love you the same old way  
No matter what may come between  
Just send me a smile once in a lonely while  
Tell me, you'll wait for me  
How can I forget your starry eyes  
Your hair when it's lit by the moonlit skies  
Just keep that smile in you 'til I come home to you  
And tell me, you'll wait for me  
You're the one, you're the one  
Whom I love and care so much for  
But now 'til it ends, I'll just wish to be near  
Caressing you, dear  
I'll always dream of dreams with you  
Those things we meant to say and do  
Keep them aglow, someday we'll make them so  
And tell me, you'll wait for me  
I'll always dream of dreams with you  
Those things we meant to say and do  
Keep them aglow, someday we'll make them so  
Tell me, you'll wait for me
